

CLEANING & SANITATION PRODUCTS THAT MEET YOUR NEEDS

FOAMING CLEANSER CS 223

- Mild general purpose cleaner for use on equipment surfaces prior to sanitizer application
- Specially blended surfactants penetrate and solubilize fruit sugars and other soils associated with produce
- Easy to apply and rinse from equipment surfaces
- Reduces labor costs associated with manual scrubbing and cleaning

PORTABLE FOAM SYSTEM

- Holds 20 gallons of foam solution
- Stainless steel frame
- 40 feet of hose
- Easy to operate and adjust for loose or heavy foam
- Simply connect to your pressurized air; no electricity needed
- Just wheel it where you need it and turn it on

SELECTROCID®

- High purity chlorine dioxide
- EPA registered sanitizer for food contact equipment surfaces
- No-rinse sanitizer on food contact surfaces
- Compatible with processing equipment
- Effective against a broad range of microorganisms (see product label)
- Easy to mix and generate product on site

PORTABLE SANITATION SPRAY SYSTEM

- Simply mix sanitizer in tank, plug in, and you are ready to spray!
- 75' of hose included
- Plug into standard receptacle
- Designed for forklift transport; compact design for easy storage and transport
- Efficiently apply final sanitizing spray to multiple lines

CLEANING & SANITATION PRODUCTS THAT MEET YOUR NEEDS

HEAVY DUTY CLEANING CS 7600

- Ideal for heavily soiled areas and stainless steel equipment surfaces
- Quickly penetrates and solubilizes organic soils
- Reduces scale build-up caused by hard water
- Heavy foam gives longer contact time
- Helps maintain a bright finish on stainless steel surfaces
- Efficiently cleans surfaces, reducing labor associated with mechanical cleaning or scrubbing.

SELECTROCID® SYSTEM FOR BRUSH WASHING

- Apply Selectocide sanitizing spray directly to fruit during the brush washing process
- Powerful biocide
- Proven performance in the produce industry
- Compatible with packinghouse equipment

RINSE, FOAM, SANITIZE ALL IN ONE SYSTEM!

- Simple to operate
- Turn a valve to switch from water to cleaner or sanitizer
- Labor and time saving
- Available in wall mounted or portable system
- Rinse, foam and sanitize with 1 person and 1 hose
- Automatic chemical injection to proper concentration
- Requirements: pressurized air 50 psi water
